1. Newly submitted claims 8-16 and 18-24 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The invention elected on July 21, 2004 after the RCE was filed on Jan. 29, 2004 did not require determining a power spectrum of the cantilever as required in the claims filed April 22, 2005. The claims filed on April 22, 2005 do not require determining plural characteristics of the cantilever as required in the claims elected on July 21, 2004 in view of the possibility of only one characteristic of the cantilever being determined as set forth in the claims filed April 22, 2005. Thus the claims as filed July 21, 2004 can be considered a restrictable subcombination with respect to the combination claims filed April 22, 2005 since they could be accomplished without determining a power spectrum per se as in the combination claims, etc.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 8-16 and 17-24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. The amendment filed on April 22, 2005 effectively acted to cancel the form of all claims drawn to the elected invention and thus its presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because of the reasons set forth above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which either to traverse the holding of nonelection by original presentation or to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
